

# Are you concerned about Edmonton tap water fluoridation? (Hydrofluosilicic acid)

Write to your City of Edmonton council representatives.

Advise them that you request an **immediate moratorium** (stop immediately) on the municipal practice of water fluoridation. Ask/demand that city council **turn fluoride off** without expensive debate or plebiscites to Edmonton taxpayers. Let them know your reasons. Is fluoride necessary? Is fluoride effective? Is fluoride safe? Is fluoride ethical?
