

SPEAKING EVENT:

Thursday, November 21, 2013 7pm

*Learn the TRUTH about
Tap Water and
Fluoridation in Edmonton*

RETHINKING FLUORIDATION: *A fresh look at Edmonton's tap water*

Featuring:

Dr. James Beck, MD, PhD

Professor Emeritus of Medical Biophysics,
University of Calgary

- *Is it Effective?*
- *Is it Safe?*
- *Is it Necessary?*
- *Is it Ethical?*
- *The Precautionary Principle?*

Dr. James Beck, MD, PhD was instrumental in the removal of fluoride from Calgary, Okotoks, and Airdrie. He is co-author of the book *The Case Against Fluoride*. Beck got his doctorate in medicine in 1957 at Washington University School of Medicine, St. Louis, and his doctorate in biophysics in 1962 at the University of California, Berkeley. Over a span of 34 years he has done research in radiobiology, pharmacokinetics, the biophysical properties of red blood cells and provided theoretical contributions in collaborations in other fields.

Dr. Anthony Hall, BA, MA, PhD is a current professor at the University of Lethbridge and will provide an introduction discussing the history, politics, legislation, ongoing controversy, and how we can stop fluoridation.

Location of Event:

**University of Alberta
Edmonton Clinic Health Academy
Room 2-190
11405-87 Avenue
Edmonton, AB**
